TOTAL STATES ON		*35	*23	*17	*12	*15		

Candidate procedure allows partisan label. Other nationally-organized parties on statewide are Socialist, Soc. Workers, Southern, & Workers World, in Florida. Socialist is on in N.J. Socialist Workers is on in Minnesota. * means a change, compared to July. Greens are on in Mississippi but weren't in time for 2002. This chart doesn't have room for one-state parties. However, the Marijuana Reform Party has 7,000 signatures in New York. Parentheses means that a party has a statewide candidate on the ballot, but he or she doesn't have a party label. Utah and Washington have no statewide races, so a party is "on" in those states if it has US House candidates.
